

What We Know	What We Want to Know	What We Learned									
<ol style="list-style-type: none"> 1. How many seasons there are 2. Rain comes from the sky 3. Meteorologist are connected to weather 4. When the clouds get dark it might rain 5. What a flood is 	<ol style="list-style-type: none"> 1. What happens in each season? 2. What happens in a rain cycle 3. What does a meteorologist do? 4. The different type of clouds. 5. Different weather vocab. 	<ol style="list-style-type: none"> 1. Spring is when lots of flowers bloom Summer is when it is really hot Fall is when the leaves fall off the trees Winter is when it snows and is really cold 2. http://www.schooltube.com/video/8bafaab71c afac5a3bb7/ 3. A meteorologist tells us what weather we can expect and when we need to take cover in severe weather conditions. We learned about the different local weather people in our town and which news channel they were on. 4. <table border="1" data-bbox="889 835 1555 1493"> <tbody> <tr> <td data-bbox="889 835 1117 1073">High Clouds = Cirrus</td> <td data-bbox="1117 835 1393 1073">Above 18,000 feet</td> <td data-bbox="1393 835 1555 1073">Cirrus Cirrostratus Cirrocumulus</td> </tr> <tr> <td data-bbox="889 1073 1117 1262">Middle Clouds = Alto</td> <td data-bbox="1117 1073 1393 1262">6,500 feet to 18,000 feet</td> <td data-bbox="1393 1073 1555 1262">Altostratus Alto cumulus</td> </tr> <tr> <td data-bbox="889 1262 1117 1493">Low Clouds = Stratus</td> <td data-bbox="1117 1262 1393 1493">Up to 6,500 feet</td> <td data-bbox="1393 1262 1555 1493">Stratus Stratocumulus Nimbostratus</td> </tr> </tbody> </table> 5. We learned about: hail, thermometers, lightning, and perception. 	High Clouds = Cirrus	Above 18,000 feet	Cirrus Cirrostratus Cirrocumulus	Middle Clouds = Alto	6,500 feet to 18,000 feet	Altostratus Alto cumulus	Low Clouds = Stratus	Up to 6,500 feet	Stratus Stratocumulus Nimbostratus
High Clouds = Cirrus	Above 18,000 feet	Cirrus Cirrostratus Cirrocumulus									
Middle Clouds = Alto	6,500 feet to 18,000 feet	Altostratus Alto cumulus									
Low Clouds = Stratus	Up to 6,500 feet	Stratus Stratocumulus Nimbostratus
